

Osmont Ltd. provides a guarantee on all its lights **in 24 months** from the date of sale.

For the luminaires with LED systems Osmont Ltd. provides a longer guarantee period, **60 months*** from the date of sale, for both LED systems:

- 1) **LED L11-L48,**
- 2) **LED-xL02A07, LED-xL02A10.**

** Extended guarantee is provided only for LED modules and power supplies. Not applicable to motion sensors and components for emergency mode.*

Conditions:

The luminaires OSMONT must be used under appropriate conditions and environment for which they are intended - according to DIN EN 60598-1. Lamps, including components must not be subjected to any mechanical stress (especially nature).

The warranty will be applied in the case of immediate sending of defective lamps manufacturers in order to determine whether a defect covered by the warranty or not.

Execution of the guarantee:

Osmont Ltd., based on the assessment of defects on the luminaire specified in the claim report, may decide to repair or replacement of defective luminaires (or components). The cost of dismantling, transportation and installation are directed by the customer (or customer end). On any additional costs, such as the costs associated with faulty installation or any other subsequent damage to fixtures is excluded.

Additional Information:

The manufacturer reserves the right to tolerances of the photometric properties of the new, under warranty provided by LED lamps (or a module) from the original.
